COMMERCIAL Interiors

Adam Bedell, Business Development & Sales

Adam Bedell, affectionately known as “The Rookie”, joined Milton Terry Associates in 2006. A graduate with a business degree from Curry College, Class of 1997, Adam brought with him a background from the merchandising & retail community.

Adam is a member of several networking groups such as the Business Resource Council & The Transitions Group. He recently started his own young entrepreneurial group focusing on young business owners.

He is also an avid Lacrosse player. With his resourcefulness both on and off the Lacrosse field; and his ability to foster and build relationships with his clients, Adam has had great success in helping his clients achieve their ideal office environment offering them a variety of solutions that fit within their budget.

Recently, Adam has received his Product certification in HON's new Abound and Vicinity lines. As only 1 of 2 dealers in Northern New Jersey permitted to offer the Abound line, Adam is looking forward to bringing these exciting new options to his clients.
