About My Company:

Pro Image Promotions offers products and services to help your business, organization, or team stand out above all the rest. Focusing on custom apparel, and having over 15 years of success in our field, we've learned that each customer is important and we work close with their individual needs.

We have designed our business to serve a wide range of customers. With the ability to do work on the premises, we can accommodate the individual looking for one item to the major corporation seeking tens of thousands of items.

Our store is fully stocked with numerous samples to see, touch, and try on. In addition, we have available a full time artist to create or enhance your design.

With an experienced team of employees, designing, creating, and manufacturing your custom items is not new to us. We are proud to say that our business has grown strong and steady mostly due to referrals from satisfied customers.

Let us give you that "Professional Image" you deserve!
